TRELLEBORG GROUP LEADER IN POLYMER SOLUTIONS

Trelleborg is a world leader in engineered polymer solutions that seal, damp and protect critical applications in demanding environments. Its innovative solutions accelerate performance for customers in a sustainable way. The Trelleborg Group has annual sales of about SEK 34 billion (EUR 3.32 billion, USD 3.92 billion) in about 50 countries. The Group comprises five business areas: Trelleborg Coated Systems, Trelleborg Industrial Solutions, Trelleborg Offshore & Construction, Trelleborg Sealing Solutions and Trelleborg Wheel Systems. The Trelleborg share has been listed on the Stock Exchange since 1964 and is listed on Nasdaq Stockholm, Large Cap. www.trelleborg.com

TRELLEBORG FLUID HANDLING SOLUTIONS

Trelleborg Fluid Handling Solutions is a unit of Trelleborg Industrial Solutions.

With over 1,000 employees and a head office located in Clermont-Ferrand, France, Trelleborg Fluid Handling Solutions is a leading developer, manufacturer, and supplier of low- and medium-pressure industrial hoses, Oil & Gas hoses, rubber sheeting and matting, and expansion joints based on advanced polymer technology.

The Trelleborg fluids team provides high-performance solutions for every need. With production sites in France, Spain, Sweden, and Turkey, Trelleborg Fluid Handling Solutions offers a wide range of competitive products, solutions, and services that meet the needs and requirements of all types of industrial applications.

Industrial hoses

Oil & Gas hoses

Expansion joints

Rubber sheeting and matting

SEWER JETTING

Sewer cleaning vehicles

High pressure jetting hose specially designed for sewer cleaning equipment.

Light weight.

Flexible and kink resistant.

Long service life.

	ND mm	WP bar	BP bar	Tube	Cover
 <p>13 - 1/2" - WP 300 BAR/4410 PSI - 1 Q 14 - Made in France</p>	13-16	300	760	NBR SBR	NBR SBR
 <p>TRELLEJET 560 - ND Ø8 - 5/20" - WP 650 BAR/9560 PSI - MAX 150 °C - 1 Q 13 - Made in France</p>	8-13	650	1600	NBR SBR	NBR SBR
 <p>TRELLEBORG STARKLER TRELLEBORG STARKLER</p>	13-38	20-10	60-30	EPDM	EPDM

HAZARDOUS WASTE MANAGEMENT

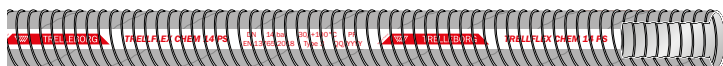

Suction and discharge of petroleum and chemical products

Hazardous waste management:

- Collection of hydrocarbons, bases, acids
- Pumping, cleaning and maintenance of oil separator tanks, degassing
- Collection of used mineral oils
- Treatment and recovery of special waste.

Robust and reliable, rubber and composite hoses range combines strong chemical resistance as well as flexibility.

ND mm	WP bar	BP bar	Tube	Cover
19-150	16	64-48	NBR	CR
19-150	16	64-48	UPE	EPDM
50-100	14	56	PP	PVC
50-100	14	56	PP	PVC

CANALKLER 250 S

' The best sewer cleaning hose '

- Canalkler 250 S
- Thermoplastic
- Other rubber hose
- Hydraulic hose

Over 25 years of hose engineering and continuous improvements on hose design,

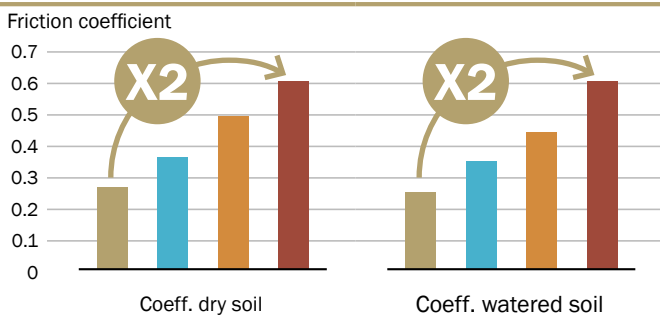

CANALKLER 250 S is recognized as the best sewer cleaning hose and far exceeds competitors by higher performances on applications.

A specially formulated compound '**slippery cover**' gives outstanding properties like:

- Low friction coefficient which helps all users to lower water and fuel consumptions*
- Superior abrasion resistance for longer lifespan due to excellent friction sliding capacities.

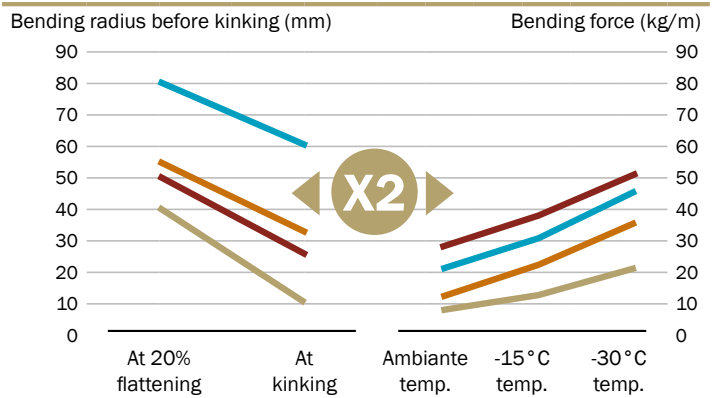

* Saving 14K€/year per truck to clean 300 km of sewer (CANALKLER 250 S against Hydraulic hose)

Low sliding resistance: higher speed

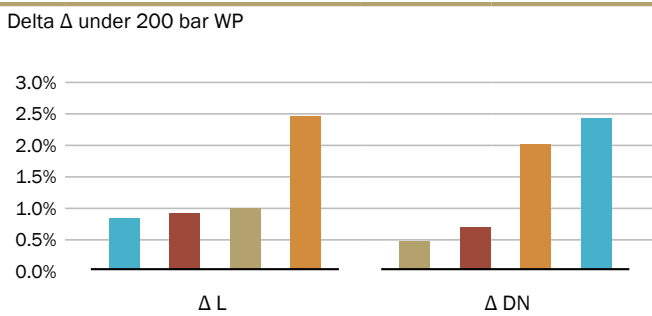

2 times more slippery

Better flexibility

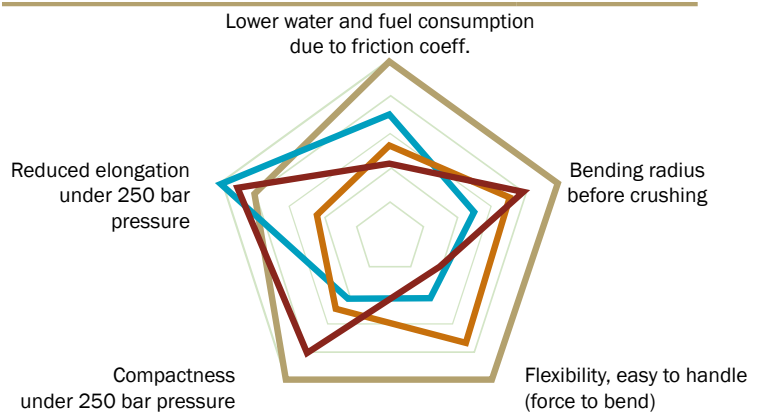

2 times more flexible

Stability under pressure

Excellent stability

Outstanding performances

Safety: textile reinforcements avoid risk of injury

Safety first

DRAIN AND SEWER CLEANING

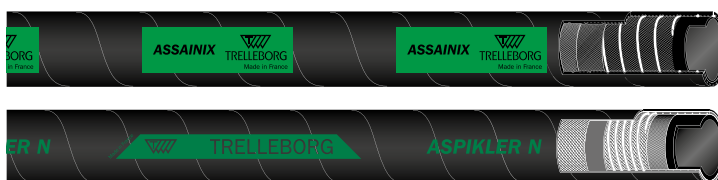

Suction and discharge for sewer cleaning vehicles

Suction or delivery of abrasive materials on stationary systems and for cassette applications on sewer cleaning vehicles.

High resistance to abrasive environments.

Excellent kink resistance even at small bending radius.

ND mm	WP bar	BP bar	Max. vacuum bar	Tube	Cover
100	4	12	0.8	NR	NR
100-152	6	15	0.9	SBR	SBR NR

CANALKLER 250 S

' The best sewer cleaning hose '

Sewer line cleaning

Sewer jetting and heavy duty high pressure water cleaning.

Low friction resistance: higher speed into the sewer.

Longer lifespan.

Textile reinforcement for better safety at work.

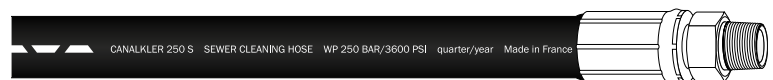

Better flexibility, even at low temperatures.

Easy to handle and user friendly.

Deformation resistance.

X2

Safety first

CANALKLER 250 S
